## DETAILED ACTION

### *Terminal Disclaimer*

1. The terminal disclaimer filed on June 23, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of United States Patent 6,091,812 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### *Allowable Subject Matter*

2. **Claims 1-11, 17-24 and 26** are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding **claims 1, 4, 7, 10, 17, 19, 22, and 26**; Mack, II et al. (United States Patent 5,991,637) and the prior art of record disclose an apparatus for alternately connecting headset to a device and alternately to a telephone connector. However, the prior art of record failed to disclose or fairly suggest an apparatus for connecting a microphone alternately to a telephone line and an alternate device, wherein the apparatus comprises a microphone connector for connecting the apparatus to the microphone; and a switching circuit connected to the device, telephone and microphone connectors, the switching circuit connecting the telephone connector to the microphone connector in response to sensing a voltage greater than a predetermined threshold on the telephone line, and the switching circuit connecting the microphone connector to the alternative device connector when the voltage sensed on the telephone line is less than the predetermined threshold voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
